Annotation Comment	Patient presenting to OB RM# 204 as outpatient for a chief complaint of lower abdominal pain, described as "contractions" onset today at 1730. G5, P3, AB1, unable to recall LMP, states had IUD removed August 2021 and found out she was pregnant in October 2021. Patient placed in room, MD R. Lozano made aware of patient's arrival, pending MD eval.	Upon SVE by MD, 2 pills found, said to be cytotec in an attempt to have an abortion, that were placed vaginally at 1630 today. Denies any pills inserted rectally or taken orally. Admits to having had an argument with unborn baby's dad and "I thought that was a solution". Also admitted to her friend providing her with the pills from Miguel Aleman MX. Vaginal irrigation with NS 500 mL done by MD R. Lozano. Tolerated fairly. Patient noted to be crying. Advised that abortions are illegal in TX. Verbalized understanding.
